

MethaTec[®] Essentials

MethaTec[®] Essentials is a granulated, individual mix of essential micro elements for process stabilization in biogas plants. If a lack of essential micro elements is detected, MethaTec[®] Essentials restores the optimal supply of bacteria. The mixture composition is individually tailored to each biogas plant and to the bacteria requirements.

Product description

- Appearance: brown powder

Product advantages

- Essential micro elements in fermentable sacks
- Re-establishes optimal supply of bacteria
- Individually tailored to each biogas plant
- Customized to the needs of the bacteria
- Iron hydroxide as carrier

Packaging and Storage

- 5.0 to 20.0 kg fermentable bags
- Keep out of the reach of children.
- Store cool and dry (5 – 25°C). Protect from direct sunlight.
- Shelf life – 24 months

Dosage

The application rate depends on the system volume, feeding rate and deficit situation. Please contact your TerraVis consultant for an individual dosage recommendation.

Safety notice

MethaTec[®] Essentials is classified and labeled according to the CLP regulation. For industrial and professional use only. For more information on the product, please refer to the associated safety data sheet.

Product data sheet, as of 3/22/2022. This data sheet is based on current knowledge and years of experience. Proper use and compliance with legal regulations are the responsibility of the user.
